

Changes to Sharepoint

ASI IT Department

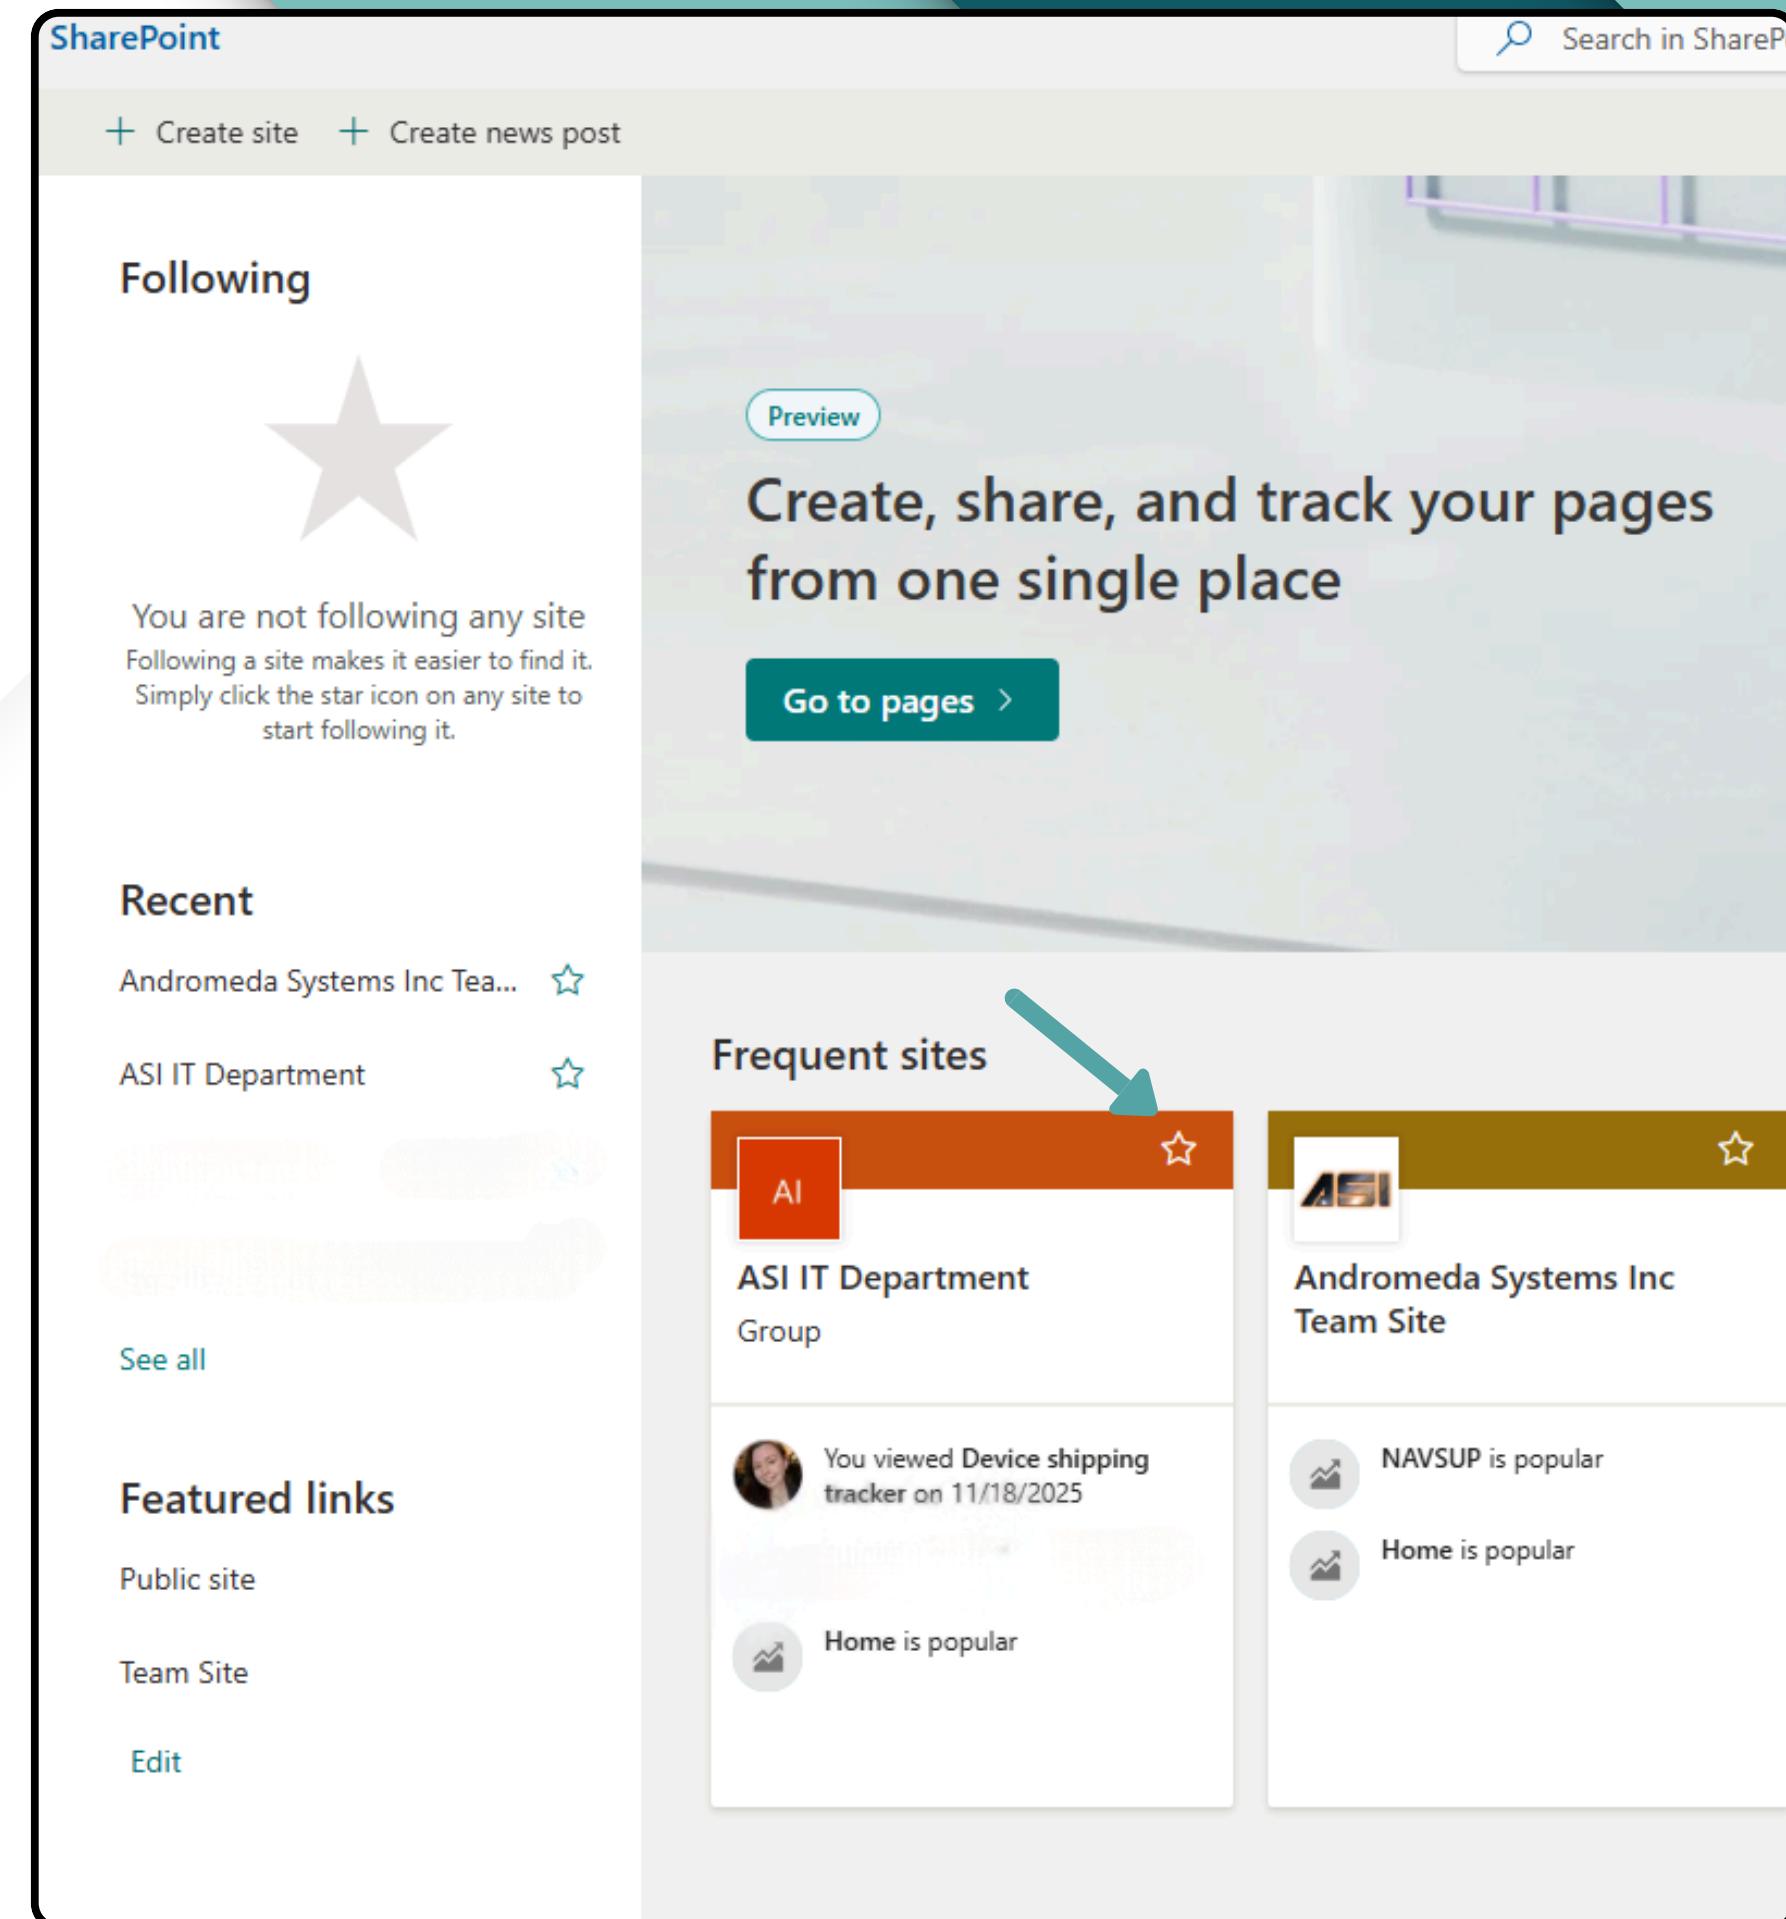

helpdesk@androsysinc.com

Frequented Sites

After the migration your SharePoint will no longer have your previously visited sites. Your SharePoint Homepage will save them under "Frequented Sites" you will need to click the star icon to follow them. They will then appear on the left hand side.

The screenshot shows the SharePoint homepage with the following interface elements:

- Header:** SharePoint, Create site, Create news post, Search in SharePoint.
- Following:** A large star icon with the text "You are not following any site. Following a site makes it easier to find it. Simply click the star icon on any site to start following it."
- Recent:** A list of sites including "Andromeda Systems Inc Tea..." and "ASI IT Department".
- See all:** A link to view all recent sites.
- Featured links:** Public site, Team Site, Edit.
- Frequent sites:** A section with a teal arrow pointing to the "ASI IT Department" entry, which is highlighted with an orange background. The entry shows the site logo, name, and a message: "You viewed Device shipping tracker on 11/18/2025".
- Other sections:** Preview (Create, share, and track your pages from one single place), Go to pages, and a sidebar with "Andromeda Systems Inc Team Site", "NAVSUP is popular", and "Home is popular".
